

Peasehall Parish Council - Internal Controls 2023/2024

The Accounts & Audit (Amendment) (England) Regulations 2015 aims to strengthen governance and accountability through requirements related to internal control and internal audit.

Whilst the Council has reviewed the effectiveness of the internal audit (independence, competence, proportionate and scope) it has a requirement levied on it to ensure that its financial management is adequate and effective and that it has a sound system of internal control:

‘The regulations require active participation by members in providing positive assurance to the electors of their stewardship of public money. The framework of accountability is risk-based ie the level of control and management must be appropriate to the risk involved. The Council must determine the most appropriate method of internal control...care should be taken to ensure that internal control tests are proportionate and relevant and that they are not seen as, nor intended as, undue interference in the RFO’s day to day management of financial affairs’.

As part of its internal controls, the Council conducts a review of the system of internal controls via the following tests on an annual basis with a written report of any findings submitted to the Council and minuted as received.
